

DEPLOYMENT STEPS

1. Deploy uFragment contract.
2. Deploy UFragmentPolicy contract.
3. Initialize uFragment owner with deployer address.
4. Set UFragment monetary policy with UFragmentPolicy contract address..
5. Deploy Orchestrator contract with UFragmentPolicy contract address.
6. Set [owner, uFrag, cpi] for UFragmentPolicy contract.
Example : [your_address, Ufragment_Contract_address , 1000000000000000000].
7. Set exchange rate ::

Exchangerate Input Value	Exchange rate	Increase in TotalSupply
10250000000000000000	2.5 %	0.5%
10500000000000000000	5%	1%
11000000000000000000	10%	2%
12000000000000000000	20%	4%
14000000000000000000	40%	8%

8. Set uFragmentPolicy rebaseTimingParameters.
Example :
 For Testing : [601, 60, 600]
9. Set UFragmentPolicy Orchestrator contract address.
10. Parameters :

Parameters	For Testing	For Production
minRebaseTimeIntervalSec	601	86400
rebaseLag	1	10
rebaseWindowLengthSec	600	1200
rebaseWindowOffsetSec	60	7200
